

THE PARKINSON'S DISEASE THERAPEUTICS CONFERENCE

OCTOBER 16, 2025 | NEW YORK, NEW YORK

EVENT OVERVIEW

The **Parkinson's Disease Therapeutics Conference (PDTC)**, is an annual fixture of The Michael J. Fox Foundation (MJFF) that brings together 300 research and business development professionals from both academia and industry, showcasing the most exciting and innovative research from MJFF's research portfolio. This event is a truly unique platform for thought leaders and field experts to share new ideas, discuss unpublished results, and forge new relationships.

NEW for 2025: While the conference remains a one-day event, this year we're introducing a Partnering Session on Wednesday, October 15, the day before PDTC. Join us for an afternoon of networking with industry leaders, connecting with MJFF programmatic staff and learning how to engage with the Foundation.

SPONSORSHIP OPPORTUNITIES

PDTC brings together key leaders from across academia and industry to exchange ideas, share new research, and spark collaborations that move the field of Parkinson's research forward. Sponsorship offers a meaningful way to be part of this conversation, whether you're introducing a new venture, showcasing research services, or cultivating new relationships.

Varying levels of sponsorship ensure we can work together to maximize value for your company. **Opportunities can be further tailored to meet your needs.**
