

Marie:

Hello, and welcome to *The Parkinson's Research Podcast: New Discoveries in Neuroscience*. I'm your host, Dr. Marie McNeely, and I've enjoyed partnering with The Michael J. Fox Foundation for Parkinson's Research on this podcast to bring you to the forefront of the field of neuroscience to discuss the latest advances and discoveries with leading experts.

In case you haven't heard the news yet, *The Parkinson's Research Podcast* is merging with *The Michael J. Fox Foundation Parkinson's Podcast*, and we invite you to subscribe to this podcast for future episodes with similar content. The show features scientists, doctors and people with Parkinson's talking about different aspects of life with the disease as well as new research toward treatment breakthroughs.

Visit michaeljfox.org/podcasts to find more great podcast episodes, and you can also find the show on Apple Podcasts, Spotify, Audible, and other podcast platforms. For more details and quick links, visit our show notes, and thank you for joining me today for this short episode.
