

## 2022 PD Therapeutics Conference Poster Presentations

*Poster Presentations will be available to view throughout the day*

***Identification and Evaluation of Novel Imaging Probes for Alpha Synuclein Aggregates by DNA-Encoded Library Screening***

Changning Wang, PhD | Harvard Medical School

***Imaging Studies in Parkin Patients and Advancement of Parkin Gene Therapy***

Jennifer Johnston, PhD | NsynoBio

***Advancing TRPML1 Agonists for GBA-PD***

Donato del Camino, PhD | Caraway Therapeutics

***Associations of Reduced Caffeine Exposure with PD and Reduced GCase Activity with GBA Carrier Status: A Metabolomic Biomarker Study in PPMI Plasma***

Sarah Huntwork-Rodriguez, PhD | Denali Therapeutics

***Small Molecule PINK1 Activators Rescue Parkinson's Disease Pathology***

Nicholas Hertz, PhD | Mitokinin Inc.

***Ultrasensitive 24h-Semi-Quantitative Seed Amplification Assay for the Accurate Differentiation between MSA and LBD***

Luis Concha, PhD | Amprion Inc.
